

Multipurpose Carbon Filter Cartridges

Model Numbers: MPACB10J, MPACB20
MPACB20J

Applications

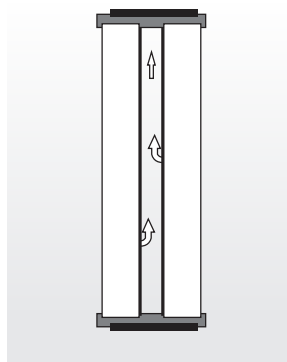

Drinking water, beverage industry, mineral water bottling, laboratory use, food industry, final filtration and other applications where low contamination levels and removal of dissolved chemicals is needed.

Benefits of Microlene's Multipurpose Carbon Filter Cartridges

Microlene's new Multipurpose Carbon Blocks (MPACB) have reduced carbon function with increased filtration ability and are ideal for water with higher sediment. They are twice as resistant to particulate plugging than standard carbon blocks.

MPACB cartridges have high dirt-holding capacity which maximises utilisation of the carbon block.

They are tested and certified by NSF International to NSF/ANSI Standard 42 for material requirements

Specifications	
Sizes	MPACB 10" J, MPACB 20" Std, MPACB 20" J
Colour	White with dark blue end caps
Micron rating	10
Media	Carbon Block
Optimal flow rate	10" J, 20" Std - 7.6 lpm 20" J - 15.1 lpm
Capacity	10" J - 56,781 L, 20" Std - 18,927 L, 20" J - 113,562 L
Max. temperature	52°C
