

Twin Filter Housings Kit

Model Numbers: KAS10J, KAS20J

Applications

Suitable for all applications where cartridge filtration is required. Stand alone 10" or 20" dual filter kit, supplied with matching filter cartridge.

Benefits of Microlene's Twin Filter Housings Kit

- Material of construction is reinforced polypropylene
- Jumbo housings take cartridges of 114mm OD (4.5")
- This heavy duty water filter system double filters the water, and ensures maximum cartridge life for medium to large families
- Install two kits when higher flow rates are required
- KAS10J - Jumbo Dual 10" Housings supplied with matching 20 micron polypleated and 1 micron polyspun filter cartridges. (with dry weight of 7.1kg)
- KAS20J - Jumbo Dual 20" Housings supplied with matching 20 micron polypleated and 1 micron polyspun filter cartridges. (with a dry weight of 9.2kg)
